COURSE DESCRIPTION: This course engages students in research, planning, and submission/approval of a Capstone project plan as a part of the Master of Arts (MA) in Arts in Medicine. The student undertakes extensive literature review to support the development of a plan for developing and accessing an arts in health project in a healthcare facility or community health setting. A robust literature review, program planning, proposal writing, reflective writing, and regular meetings with the course instructor assist students in developing an appropriate Capstone plan and specific skills to deepen understanding of professional arts in medicine practice.

COURSE OBJECTIVES:

1. Identify and practice advanced skills in literature review and in proposal writing.
2. Articulate Capstone project goals for engaging the arts to address health in a healthcare or community setting.

3. Investigate and identify the range of considerations necessary for planning an effective arts in medicine Capstone project.
4. Identify and apply program planning skills including the articulation of goals, objectives, anticipated outcomes, methods, and evaluation plan.

PREREQUISITE KNOWLEDGE AND SKILLS: Knowledge and skills developed in prior coursework such as literature review and program planning as well as resources from *Research and Evaluation* will be of use.

HOW THIS COURSE RELATES TO THE STUDENT LEARNING OUTCOMES IN THE ARTS IN MEDICINE GRADUATE PROGRAM:

This course is a culmination of graduate training that prepares the student to fulfill the 3rd SLO in the Capstone course at the end of the graduate program.

SLO 3: Leadership (Professional Behavior)

Students will be able to identify and articulate conceptual and procedural knowledge to develop, administer, and evaluate arts in health programming.

INSTRUCTIONAL METHODS: This course engages in planning, research and writing of a Capstone proposal in preparation for the culminating Capstone project.
