Course Description

The aim of this course in private piano study is to augment practical keyboard skills attained from the COMPLETED sequence of Piano Skills courses. Hence, MVK 1411 will center upon activities that enhance the student's ability to utilize the piano as a teaching tool. Specifically, the course will cover activities in accompanying, harmonization, vocal warm-ups, and sight-reading, in addition to study of scales and arpeggios. Depending upon available time and the ability of the individual student, lessons may also include detailed study of a piano solo piece.
