**Course Description**

This course offers an overview of European and American art and architecture from the Renaissance to the twenty-first century. We will study the historical, social, and cultural circumstances in which works of art and architecture were created and viewed in order to understand their functions and meanings. The course introduces students to key concepts and concerns in art history, enabling them to relate works of art to specific historical, religious, and political contexts. It likewise develops critical thinking skills and visual literacy through verbal and written analysis of images.

**Course Objectives**

- To identify major forms, actors, and episodes in the history of art from the Renaissance to the present
- To hone the skills of describing and analyzing artworks both formally and historically
- To comprehend different approaches to and definitions of art historical analysis
- To understand artworks as objects that not only reflect, but also produce history
- To develop skills of close reading, active listening, and engaged discussion

**Course Requirements / Grades**

### **Course Materials**

All required readings will be provided as PDF files via Canvas.

### **Lecture Attendance, Absences, and Lecture Recordings**

Lecture attendance is mandatory for this class. If you have a valid reason for needing to be absent, please contact your TA at your earliest convenience. Exceptions will be made according to UF guidelines.

### **Discussion Posts**

Each week, by Wednesday evening at 11:59 PM, students should post a 1-paragraph response to the required reading for that week's discussion section. These posts should not aim to summarize the reading, but should instead raise questions and make connections to ideas, artworks, or contexts that come to mind. The purpose of these posts is to generate ideas in advance of the more involved in-person discussions in the weekly section meetings.

### **Section Participation**

Participation in section meetings is likewise required. Students should come to section meetings having completed the required reading and ready to engage in discussion of the material and close visual analysis of particular images.

### **Midterm and Final**

The midterm and final exams will each have two components. The first is an in-person exam that will require answers to be completed in Blue Books. These will involve image comparisons and definitions of key terms. A separate, take-home component will also be assigned, and will consist of 2–3 short, creative questions and/or prompts.

### **Exhibition Review**

To be graded by the TAs, the final 5–6 page, double-spaced exhibition review will involve employing the skills of visual analysis and art historical contextualization honed throughout the course to interpret and evaluate an exhibition at the University Gallery on campus or the Harn Museum of Art (The exhibition themes and dates are still TBA; I will update this information when it becomes available.)
